

Buntu Majaja

Innovation and partnerships lead, venture strategist and AI commercialisation architect for Global South markets.

I design and scale innovation systems that convert vision into ventures across Africa. From Africa's largest startup event to accelerators and cross-continental investment bridges, my work connects founders, capital and institutions.

Keynotes

The convergence crisis: AI, robotics and batteries

For tech executives, strategists and investors

Economic sovereignty: how money, land and ideas really work

For development agencies, policymakers and economic forums

Foresight: tech and innovation predictions

For corporate leaders and conference audiences

Innovation ecosystems: the complexity that impacts everything

For government, development agencies and innovation teams

Masterclasses

Capital 101

Match the money to the milestone. For founders and programmes

AI-native leadership session

Turn convergence from threat into advantage. For executive teams

Ecosystem design lab

Build the system, not just the event. For institutions
